## EXPERIMENT – 3.2

**Student Name:**Rajiv Paul

**UID:**20BCS1812

**Branch:** CSE

**Section/Group:** 20BCS\_WM\_702(A)

**Semester:** 5<sup>th</sup>

**Date of Performance:**03/11/2022

**Subject Name:** Competitive Coding

**Subject Code:** 20CSP-314

### AIM OF THE EXPERIMENT:

To solve the following hacker rank problems based on Backtracking.

**Problem 1:** <https://www.hackerrank.com/challenges/down-to-zero-ii/problem?isFullScreen=true>

#### 1. PROGRAM CODE:

```
import java.io.*;
import java.util.*;

public class Solution {
    static int[] moves = new int[1000001];

    public static void main(String[] args) {
        for (int i = 1; i <= 1000000; ++i) {
            int least = moves[i - 1];
            for (int j = 2; j * j <= i; ++j) {
                if (i % j == 0) {
                    least = Math.min(least, moves[i / j]);
                }
            }
        }
    }
}
```

```

        moves[i] = ++least;
    }
    Scanner in = new Scanner(System.in);
    int t = in.nextInt();
    while (t-- > 0) {
        System.out.println(moves[in.nextInt()]);
    }
}
}
}

```

## 2. OUTPUT:

### Congratulations

You solved this challenge. Would you like to challenge your friends? [f](#) [t](#) [in](#)

## **Problem 2:**

<https://www.hackerrank.com/challenges/truck-tour/problem?isFullScreen=true>

### **1. PROGRAM CODE:**

```
import java.io.*;
import java.util.*;
import java.text.*;
import java.math.*;
import java.util.regex.*;

public class Solution {
    public static void main(String [] args) {
        Scanner in = new Scanner(System.in);
        int n = in.nextInt();
        List<Integer> list = new ArrayList<Integer>();
        int tank = 0;
        int result = -1;
        for(int loop=0; loop<n; loop++) {
            int net = in.nextInt() - in.nextInt();
            if(tank + net > 0) {
                if(result==-1) {
                    result = loop;
                }
                list.add(net);
            }
        }
    }
}
```

```

        tank += net;
    } else {
        list.clear();
        tank = 0;
        result = -1;
    }
}

System.out.println(result);
in.close();
}
}

```
